

QUEEN SUMMARILY DEPOSED

Far East Disturbed by a Sudden Revolution in Corea.

AMERICAN AND RUSSIAN MARINES LANDED

Used Simply to Protect the Legations of Their Respective Countries - Fate of a Queen Not Known to a Certainty.

WASHINGTON, Oct. 14.—Information of the formidable uprising in Corea, resulting in the disappearance and probable death of the queen and the landing of military forces by the United States and European powers, has been received by Minister Karino of Japan from the foreign office of Tokio. It is quite sensational, indicating the landing of marines by Russia, the United States and probably Great Britain. The latest dispatch to Minister Karino states that a force of Russian marines, forty in number, has been landed. Thus far they have confined themselves to guarding the Russian legation.

The dispatches come from Tokio and communicate the substance of dispatches received from General Maitai, the Japanese envoy at Seoul. They are dated from the 9th to the 12th inst. and it appears from these dispatches that the trouble had its inception through the queen's dislike of the Japanese.

It is believed also that British marines have been landed. Besides these, the Japanese have a considerable force of soldiers at Seoul, who have been preserving order.

The Japanese government, the dispatch further states, has appointed a commission to inquire into the facts. In the meantime, it is emphatically denied that the queen's death, if it has occurred, was due to the Japanese. One report says that a Japanese Shoshi killed the queen. This is not yet confirmed in the dispatches received. It is also stated that the Shoshi are an irresponsible and lawless class and that their acts cannot be laid to the Japanese people or government.

At the Korean legation no word has been received from the disturbed capital. The officials are much excited and do not doubt that the queen has met her death, although they are not ready to abandon hope. In case official communications are received, they will be sent formal reports as usual on the death of a sovereign. The legation has sent a funeral service, although this has been considered as a further mark of respect.

MAY HESITATE TO MAKE A CHANGE

Acknowledge the Evil, but Fear to Apply the Remedy.

LONDON, Oct. 14.—The Times leader on the speech delivered by Secretary Carlisle before the Massachusetts Reform club at Boston Saturday concludes as follows: "We cannot feel assured that any immediate result will follow from Mr. Carlisle's forcible statement of the risks and results of the system under which the United States currency is issued. Indefinite obligation of reissuing greenbacks, after allowing them to be employed for the purpose of gold. The obstacles created by the political situation might be overcome if these men were as keenly interested in the matter as they were before trade began to languish. It is not clear, however, that the reform of the currency which the secretary of the treasury foreshadows, but does not seem to have considered, will be more than a mere change of name. The latter have been imposed upon the government, yet they may hesitate to commit themselves to a new system of currency, and it is events they may find it easy to devise reasons for objecting to it."

LIEUTENANT CALLED TO ACCOUNT

Capture of the Spanish Patrol Boat to Be Inquired Into.

MADRID, Oct. 14.—Admiral Aldinger, the Spanish minister of marine, has ordered that a strict inquiry be made into the capture by the Cuban insurgents at Anserobabo bay, near Santiago de Cuba, of the Spanish patrol boat and the disarming of the guard of marines on board of her. The boat was commanded by a lieutenant of the Spanish navy, and had twelve marines on board. Her armament consisted of a 40 mm. gun and a 37 mm. gun. The lieutenant and his crew were suddenly boarded by the Cuban forces, and all her armament, stores, etc., as well as the arms of the marines, were taken. The lieutenant was killed, and the crew were then liberated. According to the instructions of the Spanish minister of marine, the lieutenant was in command of the boat, and he is to be held responsible for the facts in the case as reported.

BULL FIGHTER'S NARROW ESCAPE

Animal Caught Him Up Against the Barriers.

MEXICO CITY, Oct. 14.—Bull fighting circles are agitated over the narrow escape from death of Ponciano Diaz, national hero of the ring. The bull got him pinched between the barrier and his horns, and Ponciano, seizing the horns, lifted himself and jumped over the barrier amid applause. His mother, who was among the spectators, nearly fainted as she saw her son being rammed against the boards by the bull. Ponciano was not in his best form, and the audience jeered him, and he, growing enraged, addressed a speech to the crowd asking if he had crossed the barrier without being killed. He was then to be hissed at by an ignorant mob in Mexico, whereas the mob yelled again in order to provoke him to some unusual feat of daring. Ponciano is still and bruised, but will be all right soon.

PRECAUTIONS AGAINST DYNAMITE

All Brush to Be Cut from Near Cuban Railroad.

HAVANA, Oct. 13.—The recent use of dynamite by the insurgents along the line of the Cuban railway is causing the authorities grave uneasiness, and it has been considered expedient to employ some special measures to suppress the practice. With a view to checking it Captain General Martinez de Campos has published an order that all trees and bushes should be cut down within a distance of 200 yards of the railway track on both sides. It is further ordered that no one shall be allowed to approach the trees within a distance of 200 yards, and that any person who is found doing so shall be summarily court-martialed. Captain General de Campos also publishes an order which prohibits that he will continue to cut down the brush, and that he will order down his arms and surrender themselves to the authorities, except the chiefs. These latter are to be permitted to pass unharmed, and to ascertain whether any of them have been guilty of offenses in the conduct of the insurrection. As a further warning against the use of dynamite, severe Spanish laws enacted in Spain in 1894, as a result of the attempt to murder the theater "Barcelona," are to be published here.

DURRANT CASE GIVEN A REST

Jurors Allowed a Little Time to Attend to Private Business.

DEFENDANT IS BECOMING DOWNSPIRITED

For the First Time He Appears to Realize the Seriousness of His Position—Preparing for the Minute Williams Case.

SAN FRANCISCO, Oct. 14.—The trial of Theodore Durrant for the murder of Blanche Lamont did not go on this morning. So many of the jurors are business men, court adjourned until tomorrow. It is likely that the court will tomorrow morning take a further adjournment. Attorney Denprey, the counsel for the defendant, is confined to his bed with a fever, and his associates will base this as a reason for continuing for several days. Although the court is known to be opposed to delays in this trial, it is believed, however, that he will grant the continuance. In that case the trial will not likely be resumed before next Monday.

In the meantime Theodore Durrant remains in his cell, never leaving it for the customary exercising in the courtyard. It is said that he is becoming depressed and irritable. Since he finished his testimony in Judge Murphy's court the defendant has lost considerable vivacity, and, instead of being careless and indifferent, he is serious and troubled.

For the first time since his arrest the medical student seemed impressed with the proper ideas of his terrible position. At last he has dawned on him that he is being tried, and as he realizes the chain of circumstances against him he has become more thoughtful.

PURITY ADVOCATES IN SESSION

President Powell Delivers the Opening Address.

BALTIMORE, Md., Oct. 14.—The first National Purity congress under the auspices of the American Purity alliance, convened in this city tonight, and will continue in session for three days. The subject of the congress is the repression of vice, the prevention of its regulation by the states, the better protection of the young, the rescue of the fallen, to extend the White House among men, and to protect the law of purity as equally binding upon men and women. Vice, he said, is legalized in groups, but in few cases is it so in America. In these cases it is legalized, rather than actually, rendered lawful. He referred to Omaha, in which he said, fines are levied in the amount of \$100 to \$200, and the proceeds of which go to the maintenance of the public schools, a practice which he spoke of in the severest terms. He also spoke of the efforts to legalize it in Cleveland, St. Louis, New York and "even the Puritan city of Boston."

The speaker dealt, upon the laws of the various states, which he said, are in many cases "these so-called acts of consent statutes discriminate against girlhood and in favor of immoral men. They are for the most part, a disgrace to the several states of the union." He also spoke of the efforts to legalize it in Cleveland, St. Louis, New York and "even the Puritan city of Boston."

DISCUSSED CHURCH UNITY

Amendment Authorizing Bishops to Recognize Those Subscribing to the Creed.

MINORITY REPORT ON THE AMENDMENT

Bishops Recede from Their Opposition to the New Decree of Marriage—Revision Committee About Through with Its Work.

MINNEAPOLIS, Oct. 14.—The subject of church unity came to the front almost at the opening of the session of the Episcopal house of deputies today. A report was presented by a majority of the committee on amendments to the constitution presenting an amendment empowering a bishop to recognize congregations outside the Episcopal church and take them under his special care, provided such congregations subscribe to the Episcopal creed, in which case it need not necessarily be confirmed.

A minority report signed by six members of the committee was presented by Rev. J. J. Faule of Minneapolis. The minority opposed the amendment because it touched the book of common prayer, gave bishops the right to set aside the customs and canons of the church, even gave a bishop power to celebrate mass if a congregation desired from the church and had no compensating advantages. The report also stated that the amendment, instead of being a step toward church unity, was really in the direction of segregation and not spiritual unity.

CASH TOOK ALL THE MONEY

Defalcation Rendered the Suspension of the Bank Necessary.

KANSAS CITY, Oct. 14.—An appeal to the Star from Fort Scott, Kan., says: A sensation was created this morning when Vice President J. J. Stewart of the State bank of this city posted the following notice at the hour of opening: "This bank is closed subject to the order of the receiver. The depositors' money will be paid in full. The defalcation of the cashier is caused by the defalcation of the cashier."

A large crowd of excited depositors gathered around the bank door and discussed the situation. The cashier, J. R. Coleman, has had the utmost confidence of all. He has been cashier since the bank was organized in 1883. Last Wednesday he left town, telling a reporter he was going to his old home in Jerseyville, Ill., where his wife is visiting. Cashier Coleman confessed to President D. P. Coon of the bank, the West End hotel, St. Louis, Saturday night, that he had lost about \$50,000 in stock and bonds speculation. The theft had been systematically practiced for a period of over two years and covered up by a manipulation of the bank's books. In a letter to the cashier, J. R. Coleman, he said: "The loss will fall wholly upon the stockholders, as the assets of the bank are amply sufficient to pay all depositors. It will take a little time to realize on the assets, but the officers of the bank are fully assured of their sufficiency to pay all claims."

A minority report signed by six members of the committee was presented by Rev. J. J. Faule of Minneapolis.
